EDUCATION

August 2013 - May 2017

BS Literature, Media, and
Communication,

Georgia Institute of
Technology, GPA 3.85

PROFILE

I am a recent Georgia Tech graduate who studied Literature, Media, and Communication, with a focus on media and interaction design. My experience and passions include graphic and UX design, and I am looking to get more experience in those fields. I am also interested in the development process for both websites and apps, and would like to expand my capabilities in those media.

EXPERIENCE

Fall 2016

Co-Design and Qualitative Methods

Worked in an internationally diverse group to design and prototype and data visualization app with Naturpark Amager, a nature reserve within Copenhagen.

Fall 2016

Digital Experience & Aesthetics

Worked in a group to design a project that used machine learning to train a program to watch people walk and attempt to guess their gender.

Fall 2016

Exchange Program at IT University of Copenhagen

Studied at ITU for a semester as part of their Digital Media and Design program.

Fall 2015

Principles of Interaction Design

Learned about wireframes and prototypes, systems diagrams, and discussing designs within a group.

Spring 2015

Principles of Visual Design

Learned about mood boards and personas, branding, and creating logos.

Fall 2013 -
Spring 2015

Grand Challenges Research Project

Worked in a group of 7 people to teach Atlanta high school students about renewable energy.
